## MINUTES

### **Kinni Corridor Project Committee Meeting**

Thursday, June 29, 2017

4-5:30 p.m.

City Hall – Training Room

The Kinni Corridor Committee met on June 29, 2017. Those in attendance included Lisa Moody, Patricia LaRue, Dave Fodroczi, Susan Reese, Mary Zimmermann, Dan Toland, Buddy Lucero, Gary Horvath, Rita Kozak, Mary Zimmermann, Amy Peterson, Chris Blasius, Mike Stifter, Reid Wronski, Ismael Martinez and Mark Lobermeier.

Buddy Lucero called the meeting to order.

### **DISCUSSION ITEMS**

#### **1. Public Comment**

Michael Page thanked the Committee for allowing him to present the FOTK report at the June 22 meeting.

#### **2. Committee Member Check-in: Questions, comments, items not on the agenda**

Ismael Martinez clarified remarks from the June 22 meeting regarding the technical memos and the roles and responsibilities for the Committee to review those documents.

Mary provided a brief update regarding the website.

Buddy asked for questions regarding the FOTK presentation on June 22; there were none.

#### **3. Tech Talk #5 - Dam Removal Alternatives**

The Committee broke up into small groups to discuss the draft questions for the panel and to define the desired posters for the poster session. Buddy had written edits from City administrator Scot Simpson.

Each of the three small groups offered comments, edits and additions to the draft questions presented to them in the agenda packet for the meeting. The questions were organized around each of the three panelists. Based on the feedback, Mark was to draft final questions and review with City staff and the panel prior to July 20<sup>th</sup>.

The general nature of the comments was to remain balanced in the content and tone, keeping the focus on River Falls and not on other projects or communities. There were concerns expressed about misrepresenting costs, and how posters might better cover issues like stormwater.

Next, the small groups focused on the poster sessions. There was agreement to not address recreation as it will be the topic of Tech Talk no. 6 in September. There was also consensus to address stormwater, visual impressions, precedent projects, hydro operations, relicensing and financial considerations.

4. Adjournment

The meeting adjourned at 5:30 pm.
